

Account No. _____ Service address: _____

I, _____, authorize Algoma Power Inc. (API) to disconnect the power at the location noted above.

Reason: _____

In signing this request, I understand the following:

- 1) My electrical connection will be disconnected & removed from the API distribution system (API Pole) along with all API owned equipment (meter, transformer, poles, etc)
- 2) If electricity is requested in the future at this location, a Connection Application will be required prior to reconnection.
- 3) An Electrical Safety Authority (ESA) inspection will be required prior to reconnection.
- 4) I will be responsible for all connection/installation fees.
- 5) I certify that no other person will be adversely affected by this disconnection.

Please check box: I agree to items 1-5 above _____
Initials

API reserves the right to deny connection, as outlined in section 2.1.3 Connection Denial of API's Conditions of Service manual.

The meter number is: _____
(The meter number is a six digit number at the bottom centre on the face of the meter and may be preceded by the letters 'API' or 'GLP'- It can also be found on your API bill.)

The meter is located: Outside
Inside *(An appointment must be arranged for API to have access to the meter if it is inside.)*

I would like the power disconnected (when?): _____
Note: API requires one week notification to schedule work.

Signature of Customer: _____

Date: _____ Telephone Number: _____
