

Key Contract

API-Account Number _____
Customer Name _____
Telephone Number _____
Service Address _____
Special Instructions _____

API shall, at all reasonable hours, have the right to read, inspect, repair, replace and remove any part of the metering installation and have free access to the Customer's premises for that purpose.

If the meters are inside, or there is a locked gate on the driveway, locked box around the meter, or some other point locked between the meter and the API representative, the Customer shall provide a key to API. If the locks of the service address are changed, it is the Customer's responsibility to advise and provide Algoma Power with a new key.

Safety: All paths both inside and outside the premises must be in good repair (e.g. no loose or broken steps, snow cleared, etc.) and not obstructed by foreign objects (e.g., toys, tools, laundry, etc.), and the meter must be kept clear of obstructions (furniture, storage items, etc.).

If the meter remains inaccessible for safety or any reason, API may request, at the owner's expense, the meter be moved to an accessible location for the service to remain connected. When service is terminated, the customer may request key to be returned.

I have read the information above and am in agreement with it.
